To Whom it May Concern;

My name is Alan Fritz. I'm the Health, Safety and Environment Manager for Birchcliff Energy Ltd. We are an intermediate upstream E&P company with our corporate offices located in Calgary, Alberta.

Over the past 8 years, I have implemented the Ditch Hitch into our field operations for Husky Energy, Highpine Oil & Gas, and now Birchcliff. Since we began using the Ditch Hitch, our towing related incidents were eliminated at each of these companies. Towing can be considered a critical task and I believe our operators are very confident with the reliability of the Ditch Hitch and its ability to help them conduct safe towing operations.

I have used this product personally over the years as well and believe it to be the safest towing alternative on the market today. Each one of my family members carries a Ditch Hitch in their vehicle as well.

The Ditch Hitch is a safe, reliable towing alternative and as a Manager within Birchcliff Energy, I fully endorse this product.

Please feel free to contact me at 403-827-4851 if you have any questions regarding the Ditch Hitch. I would be more than happy to discuss our success with this product.

Regards,
